  - $135

- **30G 1” Needle**
  - STA-5050-301
  - $135

- **27G 1.25” Needle**
  - STA-5050-2725
  - $135

- **No Needle**
  - STA-5050A
  - $135

---

“My patients value the efforts I implement to make them as comfortable as possible. Imagine giving a comfortable injection consistently and making your patient say wow! Every time!”

— Cynthia K. Brattesani, DDS

---

**Benefits**

- Consistently delivers anesthesia below patients’ pain threshold
- Perform injection techniques that eliminate collateral numbness
- Increases patient loyalty and referrals, and provides a new marketing opportunity for the practice

---

**Disposble Handpieces (50 Pack):**

- **30G 0.5” Needle** STA-5050-30S
  - $135

- **30G 1” Needle** STA-5050-301
  - $135

- **27G 1.25” Needle** STA-5050-2725
  - $135

- **No Needle** STA-5050A
  - $135

---

“"The Wand STA instrument is one of those products that I can say honestly changed my life, and one I can’t practice without.”

— Michael DiTolla DDS FAGD

Aseptico is celebrating!
For 40 years, we have been a premiere manufacturer and distributor of high quality implant, endodontic, portable dental, and anesthesia delivery equipment.

Aseptico dental equipment is developed, manufactured, and sold in-house. Our engineering team designs our products to be regulatory compliant to U.S. and international manufacturing and safety standards, allowing us to export to over 125 countries and counting. We build and service our products at our headquarters in Woodinville, WA to ensure that it has the reliability you expect from American-made equipment. Buying direct from Aseptico means you are getting the highest quality product at the lowest possible price. We believe these advantages set us apart.

At Aseptico our motto is “Advancing Dental Technology.” Since 1975, it has been our steadfast commitment to bring you quality, innovative products you can depend on. This hasn’t changed in 40 years, and our promise is that it never will.
Best-Selling

AEU-6000 Series

Implant Motor

Recommended Use | Ratio | Speed Ranges
--- | --- | ---
Implant | 20:1 | 15 - 2,000 rpm
Endo | 8:1 | 38 - 5,000 rpm (36 - 1,300 rpm if Endo-AIR active)
Lowspeed | 1:1 | 1,000 - 40,000 rpm (300 - 10,000 rpm if Endo-AIR active)
Oral Surgery | 1:2 | 2,000 - 80,000 rpm
Restorative | 1:5 | 5,000 - 200,000 rpm

The AEU-6000 is our best-selling implant motor because of its reliability and affordability. Coupled with the 20:1 Mont Blanc handpiece, it gives the operator the freedom to use any implant system available on the market today.

This versatile machine performs standard or mini implants, third molar extractions, and even endo (with auto-stop-reverse). No other machine can give you all these benefits at such an affordable price.

With upgradeable software this unit will be a workhorse for many years to come. Autoclavable irrigation tubing means you don’t have to buy tubing for every procedure. Five preset buttons can be programmed separately for both implants and endodontics, reducing your procedure time dramatically.

Reasons To Buy
• Simple controls, easy-to-use
• Everything you need in one package
• Perfect for the everyday user
• Upgradeable software

Quick Specs
• Places up to 50 Ncm (w/ Mont Blanc handpiece)
• Compatible with all implant systems
• Control the whole procedure from the foot pedal
• Reusable, autoclavable irrigation tubing. No more buying disposable tubing!
• Multiprocedure machine with endo and oral surgery functionality

“[I] have really enjoyed my Aseptico AEU-6000. It meets all my surgery needs, from placing implants to removing full bony impacted wisdom teeth.

I have found that this unit has more features and better torque than my old W&H...Ever since using the Aseptico product my W&H hasn’t seen the light of day.”
— Heath Snell DDS

AEU-6000-70V $3,140
Replacement Micromotor AE-230M-40 $890
Handpiece AHP-85MB-CX $1,650
Carrying Case 410205 $495

AHP-85MB-CX
Included in Package Special
See pages 12-16 for additional handpieces.
Recommended Use Ratio Speed Ranges

| Implant  | 20:1 | 15 - 2,000 rpm |
| Endo     | 8:1  | 38 - 5,000 rpm |
| Lowspeed | 1:1  | 1,000 - 40,000 rpm |
| Oral Surgery | 1:2 | 2,000 - 80,000 rpm |
| Restorative | 1:5 | 5,000 - 200,000 rpm |

[The AEU-7000] has been the finest implant motor I’ve used in my 25 years of practice! It is reliable, simple to use and efficient. I highly recommend the Aseptico 7000 motor and the MontBlanc handpiece!

— Todd Shatkin DDS

If you are looking to purchase a high quality American-made motor, then you should consider Aseptico.

— Paresh Patel DDS

Aseptico fulfilled my needs beyond my expectations. I am so pleased with my Aseptico AEU-7000 units that I recommend them to all my students at the Reconstructive Dentistry Institute as well as at my lectures at various dental societies and conferences.

— Ara Nazarian DDS

Reasons To Buy

- Recommended for the power user
- Outperforms all competitors
- Most value for your money
- Upgradeable software

Quick Specs

- Places up to 80 Ncm (w/ Mont Blanc handpiece)
- Compatible with all implant systems
- Control the whole procedure from the foot pedal
- Reusable, autoclavable irrigation tubing.
- Multiprocedure machine with endo and oral surgery functionality
- Optional LED upgrade available

Premium AEU-7000 Series Implant Motor

Add Fiber Optics for $500

AHP-85MB-CX Included in Package Special

See pages 12-16 for additional handpieces.

Package Special Motor & Handpiece

Replacement Micromotor AF-230M-40 $1,890

Handpiece AHP-85MB-CX $1,650

Carrying Case 410205 $1495

AEU-7000E-70V & AHP-85MB-CX

866.244.2954 www.aseptico.com
**Quick Specs**

- Almost 5 Ncm of torque at 80,000 RPM on a 1:2 surgical handpiece
- Autoclavable irrigation tubing and motor/cable
- High torque electric motor (no air delivered to handpiece)

The Premium Oral Surgery Motor is **powerful and efficient**, with adjustable torque up to 4.95 Ncm for surgical applications. Paired with our 1:2 Oral Surgery Handpiece, this impaction drill is perfect for **third molar extractions** and impacted teeth, as well as other surgical procedures. The handpiece has a 20° angle, providing higher visibility, ergonomics, and ease during surgery than other systems. Smooth surfaces and rounded corners make wipe-down easy and prevent the buildup of dirt and debris.

**Reasons To Buy**

- Guaranteed reliability—designed and manufactured in the U.S.A. with quality materials
- Comparable power to Stryker or Halls for a fraction of the cost
- Quiet electric handpiece

**Oral Surgery Motor** AEU-7000E ........ $4,250

**Replacement Micromotor** AE-230M-40 .... $890

**Oral Surgery Handpiece** AHP-77W .......... $1,636

45° Handpiece AHP-79W ......................... $1,406

**Carrying Case** 410205 ........................ $1,495

**Perfect For Sectioning 3rd Molars**

- Due to **30 years** of motor manufacturing experience and a reputation for building strong, reliable dental equipment, repairs will be few and far between with proper maintenance. The motor and handpiece are **autoclavable** and can be used immediately after the sterilization cycle is completed.
- The impaction drill is easily dismantled, making for **simple maintenance** and thorough cleaning.

“I chose Aseptico because it has the reputation of being affordable, durable and reliable. I bought the AEU-7000 unit and it has been a good investment for my practice. It allows me to take out the most challenging impacted 3rd molar without difficulty.

I love the new surgical handpieces. I have not had any problems with them and they cut through bone like butter.”

— Ryan Green DDS MD

**See page 14 for additional handpieces.**
The Mont Blanc contra angles are made of stainless steel and titanium, making them very strong and lightweight. All Mont Blanc handpieces are easy to clean. They feature smooth surfaces for improved infection control, and precision ball-bearing construction reduces friction to prevent overheating in most surgical procedures.

The AHP-85MB features a fully detachable head, allowing for thorough maintenance to ensure lasting durability and reliability.

**Features:**
- 80 Ncm
- Depth Stop
- 20:1 Reducer
- 15 rpm - 20,000 rpm

**Options:**
- AHP-85MB-CX ................................. $1,650
- With Fiber Optics AHP-85MBFO-CX ................................. $1,210
- Without Depth Stop AHP-85MB-X ................................. $1,370

**Self-Generating LED**
- W&H’s patented built-in light generator allows you to use this LED handpiece on any system, whether it has fiber optics or not.
- Thanks to its being half the size of a normal LED, the Mini LED+ can be integrated very close to the contra-angle head and offers optimal illumination.
- Neutral white light allows you to have daylight quality light in the treatment area.
- As soon as you activate your contra-angle, the generator turns. It autonomously generates the electricity needed for the Mini LED+ regardless of the type of drive system you work with.

**Economical Implant Handpiece**
- 20:1 Reducer • 55 Ncm • 15 - 2,000 rpm

**Models:**
- Push Button AHP-85P-I ................................. $1,010
- Swing Latch AHP-85-I ................................. $990
- Swing Latch with Depth Stop AHP-85ASH-I ................................. $1,100

Removable head for thorough cleaning. No tools required!
Oral Surgery Handpieces

**3rd Molars**

### Sectioning 1:1 Standard
- **Surgical 20° Angle**
  - 600 - 80,000 rpm
  - AHP-77W
  - $1,406
  - ($1,547 CAD)
  - AHP-79W-FO (LED) • $1,693
  - ($1,862 CAD)

### Sectioning 1:2 Increaser
- **Surgical Straight**
  - 600 - 80,000 rpm
  - AHP-77W
  - $1,799 CAD

### Handpieces

- **Sagittal Saw**
  - AHP-78-S
  - $2,253

- **Oscillating Saw**
  - AHP-78-O
  - $2,409

- **Reciprocating Saw**
  - AHP-78-R
  - $1,949

### Special Offer
- **3 Can Special**
  - $63

### Oral Surgery Handpieces

- **For tight squeezes**
  - The new 45° head contra-angle handpieces have the advantages of both straight and contra-angle handpieces.
  - Ideal for the extraction of wisdom teeth, precise tooth separations and apical resections.
  - With a ratio of 1:2.7, the 40,000 rpm motor makes it possible to achieve speeds of 108,000 revolutions per minute on the rotary instrument.

### Advantages
- Easier access to molars, even in patients with smaller mouths
- No need for spreading of the soft tissues in the cheek region during wisdom tooth extractions. While turning the head slightly during preparation, the handpiece head allows you to work quickly and safely in the retromolar region
- A triple spray guarantees sufficient cooling of rotary instrument and tooth

### AseptiSpray™
- Handpiece Cleaner & Lube
  - A must for proper handpiece cleaning and maintenance! Lubricant and nozzle (included) are autoclavable.
  - AseptiSpray™ AHP-09* (1 can) • $23
  - Nozzle only AHP-09N • $19

* Contents under pressure. This product may only be shipped by surface.
**Endo Handpieces**

- Special coating and new ergonomic design for improved handling
- Efficient cooling of the bur, tooth and the contra angle itself
- Internal irrigation
- Fiber optics

### Air-Drive Handpieces

- **Highspeed Air Handpiece (4-hole)**
  - AHP-96 ........................................... $450
- **Highspeed Air Handpiece (5-hole) with fiber optics**
  - AHP-97 ........................................... $660
- **Highspeed Air Handpiece (4-hole)**
  - Recommended for Taskforce series
  - AHP-55 ........................................... $1,330
- **Lowspeed Air Motor (4-hole) & 1:1 Straight Handpiece**
  - Adapts air turbine to accept E-style handpieces
  - With post for AHP-53 Doriot-style attachment
  - AHP-50 & AHP-101 .............................. $1,690
- **Doriot-style Attachment**
  - Accepts latch-type burs & prophy cups
  - Connects to AHP-101
  - AHP-53 ........................................... $1,110

### Tubing & Accessories

- **Irrigation Tubing Set for IV Bags**
  - AE-23 (For AEU-6000 & 7000 series) ........................... $160
  - AE-20 (For AEU-7 & AEU-70A series) ......................... $160
  - AE-26 (For AEU-925) ........................................ $160
  - AE-20AWS (For AWS-2-4 & AWS-2-6) ........................ $160
- **Irrigation Tubing Set for Irrigation Bottle**
  - AE-23-BOT (For AEU-6000 & 7000 series) ................. $170
  - **“Y” Connector AE-2** ...................................... $16
  - **Irrigation Clips (Qty 10) AHP-03** ........................ $17
  - **Inline Barb Connector AE-3** ............................... $12
  - **Straight Tubing - 6” (152cm) AHP-07T** ................. $17
  - **Irrigation Tubing AE-10 (price per ft.)** ................... $13
  - **Disposable Bayonet for Rigid Bottles** ........................ $19
  - **Mont Blanc**
    - Cannula AHP-85MB-CAN ...................................... $42
    - Irrigation Clip AHP-85MB-CLP .................................. $150
    - Stop Only AHP-85MB-STP ....................................... $120
    - **Y Connector AE-2MB** ................................... $147
- **Irrigation Nozzles**
  - AE-8D (For AHP-64) ........................................ $185
  - AHP-77D-NDZ (For AHP-77CLD,00) ........................... $152
  - AHP-77W-CLP (For AHP-77WV) ............................... $160
  - **Cannula Clip Set AHP-07** ................................ $119
    - Set includes small clip (AHP-05), large clip (AHP-06), cannula & tubing (AHP-04)

Advanced Endo Motor

- Lighter handheld motor
- Upgradeable software
- Weighted omnidirectional footpedal
- Includes all features of America’s most popular endo motor, The Endo DTC

AEU-27A ................................................... $1,540

“...the most versatile, safe and economical motor available anywhere in the world, at any price. That’s why I customized the AEU-27A with rpm and torque presets for the MounceFiles in both Controlled Memory and Standard Nickel Titanium. Upgradeable, simple to use, and ergonomic, it sets the standard for electric endodontic motors for many years to come.”

—Richard Mounce DDS
Mounce Endo

World’s Most Popular Endo Motor

- Most sold, most trusted motor in America
- Tulsa File Library included
- Auto-Stop-Reverse functionality

Endo DTC® AEU-25 .................................. $1,430

Handpieces sold separately
Reasons To Buy

• Favored among clinicians for quality and reliability
• Saves time—eliminates the need to remove and replace traditional dam during the procedure!
• Ergonomic and comfortable for greater patient acceptance

HandiDam®
The Original Pre-Framed Rubber Dam

Superior Elasticity & Tear-Resistance!

Quick Specs

• Meets FDA “Powder Free” standard
• Pre-framed, flexible design facilitates access to the oral cavity for suction, X-ray films, or digital X-ray sensors
• Extremely low protein content reduces patient irritation (<50 micrograms)
• Available in Latex (blue medium) or Latex-Free (mauve heavy)

Latex Box of 20 I-70BM .................. $131
Latex Box of 100 I-70BM-100 ........... $130
Latex-Free Box of 20 I-70LF ................ $149
Latex-Free Box of 100 I-70LF-100 ........ $225

Apex Locator

Rider (E-type) AEU-41-RID-E .......... $999
Rider (Universal) AEU-41-RID-U ........ $999
Stand-alone AEU-41-XFR (not shown) .... $749

Rubber Dam

Clamps

$12 each or 10 for $115

K-1 For roots, with deep festooned beaks
K-2 For lower bicuspids, with flat beaks

K-7 For lower molars, with flat beaks
K-8A For lower molars, with strong festooned beaks
K-9 Most popular anterior clamps
K-14 For half erupted molars
K-26 For upper molars, especially for erupted tooth
K-211 Universal for labial cavities on anteriors

Shown above are our 10 most popular clamps. Please visit www.aseptico.com/clamps for our full selection.
We believe in giving back.

For years, Aseptico has worked to support organizations striving to make dental care available worldwide. As the leading manufacturer of portable dental equipment, we want to do anything we can to make worldwide dental care a fact. In a recent dental mission to the Silver Shrine School in Nepal, Aseptico sponsored Global Dental Relief in their efforts to bring much-needed dental care to the children at the school. With our help, Global Dental Relief was able to serve 726 children, many of whom were receiving dental care for the first time. www.globaldentalrelief.org

“We and the children you served are deeply grateful for your support.” – Laurie Mathews, Director of Global Dental Relief
The AEU-525 utilizes a powerful electrical handpiece system for a multitude of dental applications including: highspeed, slowspeed and endo functionality. Features include a compact and easy-to-clean console, an intuitive user interface, and a 40k rpm brushless autoclavable micromotor. The large display is backlit for easy viewing.

The AEU-525 is based on our previous electric handpiece system and has been completely redesigned with an emphasis on comfort and ease of use for the dental professional and patients. It is easy to set up and operate, and all components pack into the impact-resistant carrying case with wheels.

Delivery module and user interface panel mount externally on secure handle, placing controls and instruments at a comfortable level. Longer cords and tubing allow for improved work area reach.

Dual level fluid sensors alert user that tank is 75% full for better procedure planning. “Full” level sensor shuts compressor off. Externally mounted waste containers mean faster and cleaner waste disposal.

Features
• High torque electric motor
• Fiber optic electric handpiece connection
• Quiet compressor
• 3-way air/water syringe
• High volume evacuator
• Saliva ejector
• Optional: fiber optic scaler

Quick Specs
• Dual voltage
• Water port for cavitron/scaler
• 56 lbs (25.4 kg)
• 17.9” x 10.4” x 22.1” (45.5 x 26.4 x 56.1 cm)
The Transport II is a **fully self-contained electric** dental system that uses E-type handpieces for **more torque**. This makes cutting teeth easier in a mobile environment. It is **easy to set up** and operate, and all components pack into the **impact-resistant carrying case** with wheels.

**Premium Portable Dental System**

Two Handpiece Connections.......... $4,470

"35,000 children got their smiles fixed and Aseptico helped with every one of them."

Gail Weisberg RDH

Handpieces sold separately.

The most popular self-contained pneumatic dental system in the world. Critical equipment for providing operative or preventative dentistry in the field. Runs standard air handpieces (highspeed and/or slowspeed), includes high volume and low volume vacuums and air/water syringe. One gallon waste container can last all day. Dual-voltage, just plug it in—anywhere in the world!

Features
- 1 or 2 air handpiece connections
- 3-way air/water syringe
- High volume evacuator
- Saliva ejector

Quick Specs
- Built-in compressor
- 110V or 220V switchable voltage
- Water port for cavitation/scaler
- 1 gallon waste container
- 43.5 lbs (19.7 kg)
- 10.5" x 14.5" x 24"
  (27 x 36 x 61 cm)

Fiber Optics Upgrade Kit . . . $515
- Compatible with any standard fiber optic handpiece
- Brilliant, cool light for intra-oral use
- ISO-B standard fiber optic handpiece terminal with stainless steel adapter and nut (Midwest 5-hole)
- Easy to replace Halogen lamp, 3.5 VAC, 720 mA (6-pin)
- Specify when ordering:
  - 5-hole (AA-19LED-04) or 6-pin (AA-19A-06)
  - 110V or 220V

- Dual Voltage Upgrade AA-20DV-CK .............................. $1,090
- Integrated Electric Motor 120367 ................................. $1,490

“First discovered the AMC-20 when I was looking for mobile equipment for my new Urgent Dental Care Practice. I did not want the extra expense of installing lines and plumbing for a full compressor and vacuum. These units are user-friendly and self-contained. I was so confident about the quality of this dental unit, I had my military unit order one for our Dental Readiness and Mobility mission.”

— Robert Byrd DDS

## Delivery Units

### Economy Air System
- Flat-top design for mounting into cabinets
- 3-way air/water syringe
- Water on/off and flow adjustment for highspeed handpiece
- Disc-type foot control
- Requires connection to air and water sources

Dual handpiece with manual selection
- ADU-07 .................................... $770

Triple handpiece with automatic selection
- ADU-07A .................................. $850

### Two-Handpiece Manual Control System
- Ideal for arm or wall mounting
- 3-way air/water syringe
- Requires connection to air and water sources

Two-Handpiece Control System ADU-04 ........................... $480

Clean Water System with 1 Liter Bottle
- NWS-7I (installed) ............................ $95

### Optional Folding Arm Wall Mount
- Weight Capacity: Up to 50 lbs (22.7 kg)
- Dimensions: 24” (61 cm) extension

Folding Arm AA-05A ........................................ $338

### AEU-5000 Electric Operative Motor
- Electrical option for general dentist to do restorative faster, quieter and safer
- Up to 200,000 rpm with high speed handpiece
- Powerful, high torque electric motor
- Intuitive design and operation
- Attach to your high speed connection and use your own rheostat
- Auto-stop-reverse torque setting for endo mode

AEU-5000 ................................. $1,430

### Adjustable Mounting Bracket
- Easily mount AEU-5000 console under a counter
- Viewing angle adjustable by 20°

Adjustable Mounting Bracket 330569 .............................. $157

### Electric Handpieces

The AEU-5000 is designed to convert a standard air delivery system into a powerful electrical handpiece system that can be used for numerous dental applications. Features include a compact and easy-to-clean console, a large backlit display, an intuitive user interface, and a 40k rpm brushless autoclavable micromotor. Our innovative LED technology provides the brightest handpiece illumination in the industry!
Heavy Duty Lab Motor
For heavy acrylic use
- Powerful 1 piece handpiece
- 35k rpm micromotor
- Console with adjustable speed and direction
- Specify 110V or 220V when ordering
- Includes AE-7P On/Off Footswitch

Heavy Duty Lab Motor AEU-16C .................. $885
Replacement Micromotor/Handpiece AE-SC-32 .... $385

Versatile Lab Motor
For light to medium acrylic use & slow speed prophy
- Versatile E-type connection with straight handpiece
- 32k rpm micromotor
- Console with adjustable speed and direction
- Specify 110V or 220V when ordering
- Includes AE-7P On/Off Footswitch

Medium Duty Lab Motor AEU-12C ............. $1,095
Replacement Micromotor AE-SC-30 .................. $275
Replacement 1:1 Handpiece AHP-64 ........ page 14

Portable Lab Motor
- Versatile E-type connection with straight handpiece
- 22k rpm micromotor
- Console with adjustable speed and direction
- Dual voltage

Portable Lab Motor
Black AEU-03M1B ........................................ $595
White AEU-03M1W ...................................... $595
Pink AEU-03M1P ........................................ $595
Replacement 1:1 Handpiece AHP-101 ........... $310

The cordless lab motor can be used as a lab motor or as a prophy. It includes high torque motor, handpiece, and long-lasting Li-ion battery.

Available in Black, Pink or White
Return Policy

• Products that have been in clinical use cannot be returned for credit.
• All returns require prior authorization. Contact Aseptico Customer Service for a Return Authorization number (RA#).
• The RA# must appear clearly on the exterior of the package being returned or it may be rejected and returned to the sender.
• Packages received without prior authorization are not the responsibility of Aseptico. Aseptico reserves the right to dispose of such packages and their contents 30 days after receipt with no obligation to the sender.
• The sender is responsible for proper packaging and for all costs for return shipment to Aseptico.
• New products may be returned for full credit (less shipping charges) under a Return Authorization number within 30 days of date of original invoice.
• At Aseptico’s discretion, certain products may be returned for credit after the 30 day period and a 25% restocking fee will apply.

Ordering Policy

• Orders under $50 add $5 handling fee.
• Aseptico accepts Visa, MasterCard, Discover, and American Express.
• Open account is available only if credit is approved in advance.
• Freight costs are added to all invoices.
• Delinquent accounts are subject to 1.5% monthly interest, attorney’s fees, collection and court costs when needed to satisfy debt.
• Prices subject to change without notice.
• Service and Repair charges are billed on credit card. Customer is expected to accept charges up to $450 without advance notification. Minimum service/repair charge is $120.
• Please visit our website: www.aseptico.com/policy.html for additional warranty and repair policy information.

Accidental misuse, inappropriate installation, or failure to perform directed maintenance voids the warranty.

Aseptico does not assume, under this warranty, any risks or liabilities arising from the clinical use of its products, whether or not such use involves coincidental utilization of products manufactured by others. Deliberately defacing, modifying, or removing the serial number voids the warranty.

NOTE: In the interest of serving our customers more efficiently, customers receiving service on non-warranted repairs are expected to accept charges that are less than $450 without further notification.
For over 25 years, Aseptico has partnered with the US Armed Forces and militaries around the world to develop the most comprehensive line of portable field equipment in the industry.

Proudly made in the USA, our military products are designed for long and short-term sustainability in the most demanding environments worldwide. Aseptico equipment meets or exceeds all US military standards for performance and reliability, as well as global regulatory requirements—FDA, NRTL, OSHA and ISO compliant!

Our rugged equipment is fully featured, lightweight and compact to ensure mission readiness and adaptability no matter where it is needed. Our systems are dual voltage and compatible with a variety of power options, including mains electricity, vehicle batteries, rechargeable batteries, generators, and solar power.
LESS PAIN.
LESS ANXIETY.
ALL SMILES.

Computer Assisted Anesthesia System
“The Wand increases patient loyalty, drives referrals, and helps define my brand. It’s one of the top 10 reasons for my success, and is an instrument I can’t practice without.”
- Cynthia K. Brattesani, DDS
